

C-PURE 750™ Smoke Evacuation System

CIMPAX® C-PURE 750™

Smoke Evacuation System
for Removal of Laser and Electrosurgical Smoke

C I M P A X

Introducing CIMPAX® C-PURE 750, a Surgical Smoke Evacuation System that redefines expectations.

Experience the simplicity and ultra-quiet operation with this compact yet powerful system. With its unique 3-port filter, it offers flexibility and convenience tailored to your clinical needs.

The CIMPAX® C-PURE 750 sets new standards for quiet operation, ensuring a safe surgical environment with 4 layers of filtration and a filter life of up to 35 hours. Operate it effortlessly using the remote sensor activator, control panel, or foot pedal. Experience unparalleled performance and value in managing surgical smoke with the CIMPAX® C-PURE 750.

- Compact design facilitates easy placement on a shelf or counter and allows for stackability
- Quiet yet powerful operation ensures a safe operating environment without disruption
- 35-hour maximum filter life provides exceptional value and lowers per-procedure costs
- 3-port filter design offers a variety of hose and accessory options, eliminating the need for adapters
- Filter ports are covered for added safety
- Simplicity reduces training requirements and enhances utilization
